Pacific Islands Area FOTG Notice PI-29

SUBJECT: SECTION IV – DOCUMENTS FOR TWO CONSERVATION PRACTICES

This Notice releases Section IV documents for the following new conservation practices:

1. Land Reclamation, Abandoned Mined Lane (543)
2. Land Reclamation, Currently Mined Land (544)

This Notice also removes the documents for the following two conservation practices, per [NHCP Notice 152](#):

1. Atmospheric Resource Management (370)
 - This practice is currently being replaced by a number of other standards such as Air Filtration and Scrubbing (371), Combustion System Improvement (372) and Dust Control on Unpaved Roads and Surfaces (373).
2. Channel Bank Vegetation (322)
 - This practice is being rescinded because changes made to Critical Area Planting (342) and Streambank and Shoreline Protection (580) address the same resource concerns.

Instructions.

Please refer to the following table for a description of the specific documents released. The documents have been posted to Pacific Islands Area eFOTG and are available for viewing and printing online at: <http://www.nrcs.usda.gov/technical/efotg/index.html>.

Contact.

If you have any questions about the documents, contact Greg Koob, State Biologist, via phone at (808) 541-2600 ext. 109 or email at Greg.Koob@hi.usda.gov. If you have any questions about this notice, contact Anthony Ingersoll, Assistant Director for Technology, via phone at (808) 541-2600 ext. 111 or email at Anthony.Ingersoll@hi.usda.gov.

A handwritten signature in blue ink that reads "Michael Yamamoto" with "acting for" written in smaller script below it.

LAWRENCE T. YAMAMOTO

Director
Pacific Islands Area

Distribution: AE (All Employees)
